Brand Tool Kit

Our design assets and how to use them

Brand Tool Kit

Master Logotype

Our logotype is a custom made mark and should not be reproduced under any circumstances.

To the right shows how our logo looks on positive, reversed on black and on primary colours.

The master (primary) logotype is black text on white background. Alternative colour combinations include: White text on Blue, Light Blue text on Green and Black text on Yellow.

Alternative Logotype

Brand Tool Kit

Master Logotype

Minimum clear space for the logotype is measured by half of the height of the text from the logotype all around.

The smallest size recommended for the logo is 30mm or 250 pixel wide. Anything smaller will need to switch to the Logo Icon.

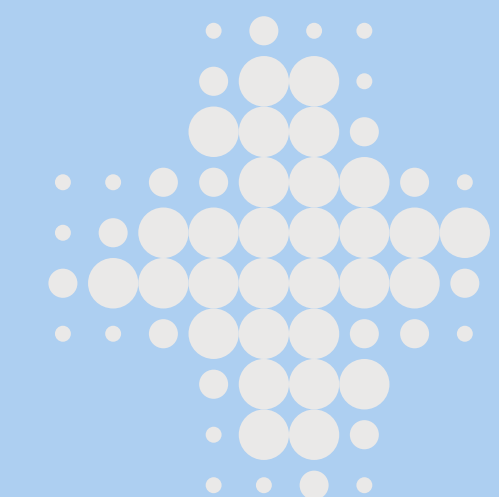

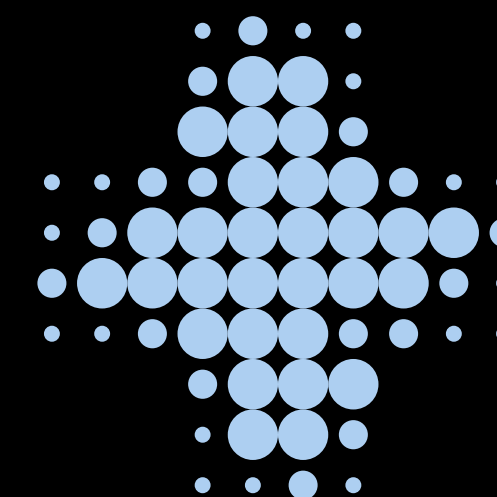

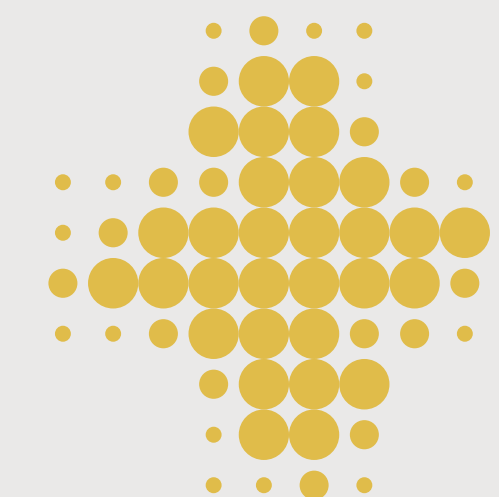

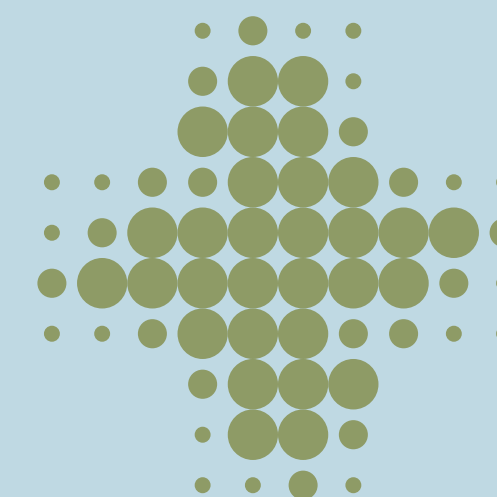

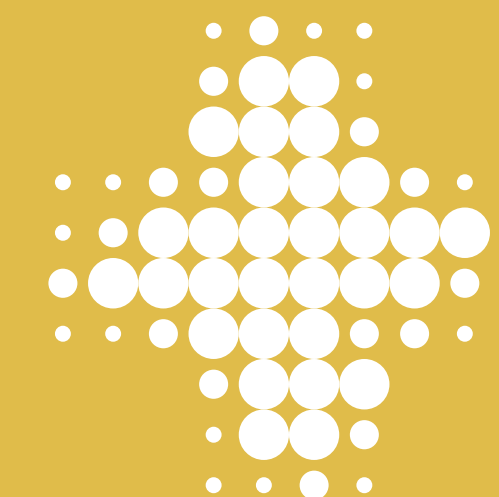

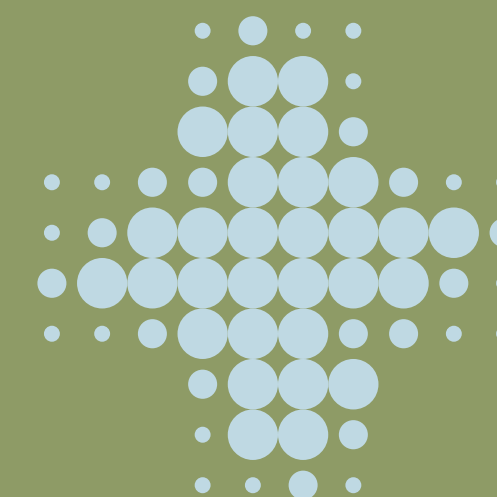

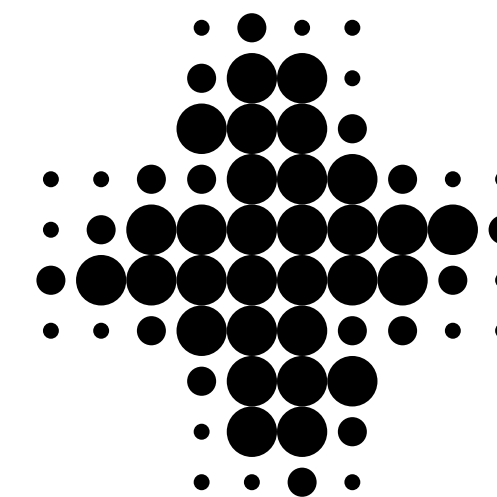

Brand Tool Kit

Logo Icon

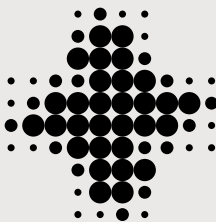

The Logo Icon, is used as the profile icon for our social media, and can replace the Master Logotype if our application size is too small for them.

The logo Icon comes in black, white and our brand colours: Light Blue, Blue, Yellow, Off-White and Green.

Responsive Brandmark

Responsive brandmark system for print and for digital. Please use our set of corporate brandmarks in responsive to the application size.

Our Typography & Fonts

We use Termina Bold, Area Normal Bold and Borna Medium in varying sizes to create a clear typography hierarchy. Please follow the example for a general guide on the scale of heading, body copy and caption.

**We’re founded by
formulation chemists
and cancer survivors**

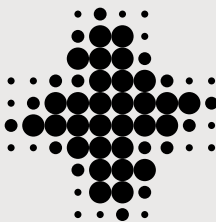

Heading
Termina Bold

B-Restore Barrier Enhancing Cream is a powerful cream that significantly improves moisturisation and hydration. It is clinically proven to strengthen the skin’s natural barrier, therefore, it measurably reduces TEWL. It restores and rebuilds the skin’s microbiological and physical barrier to soothe, moisturise and hydrate skin; reducing dryness, itchiness and irritation.

Body
Area Normal Bold

- Dermatologist approved, safe for the skin
- Clinically proven to strengthen the skin barrier
- Reduces TEWL
- Moisturises for up to 24 hrs
- Non-irritating
- Suitable for sensitive skin & eczema-prone skin
- Microbiome friendly
- 98.87% natural & naturally derived ingredients

Image Container Usage

The container can be used as the image container but also a solid shape filled with our brand colours. Image container can only be used for digital.

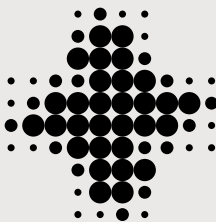

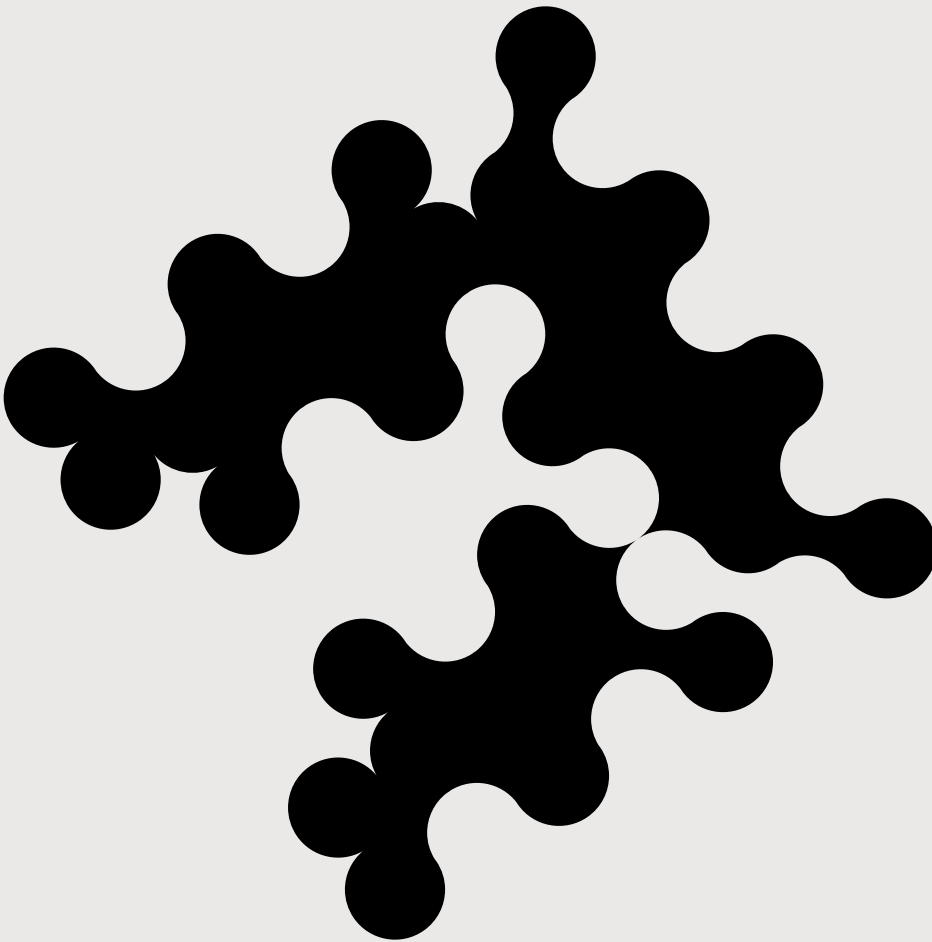

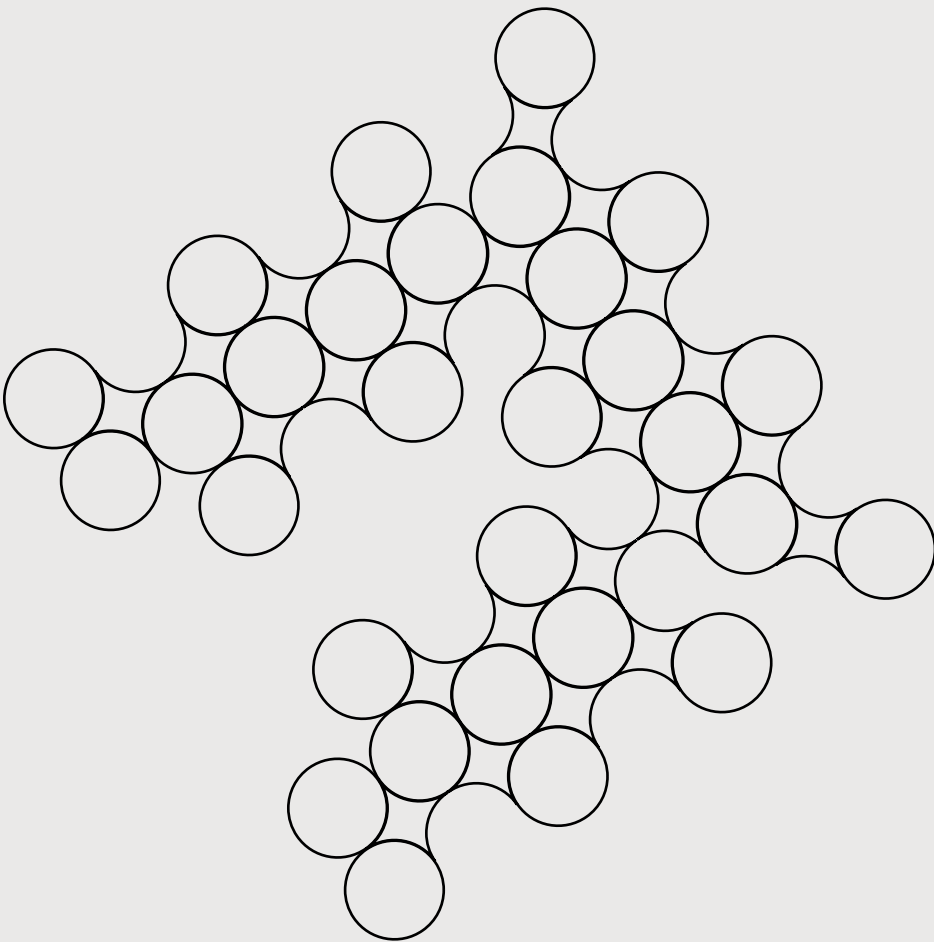

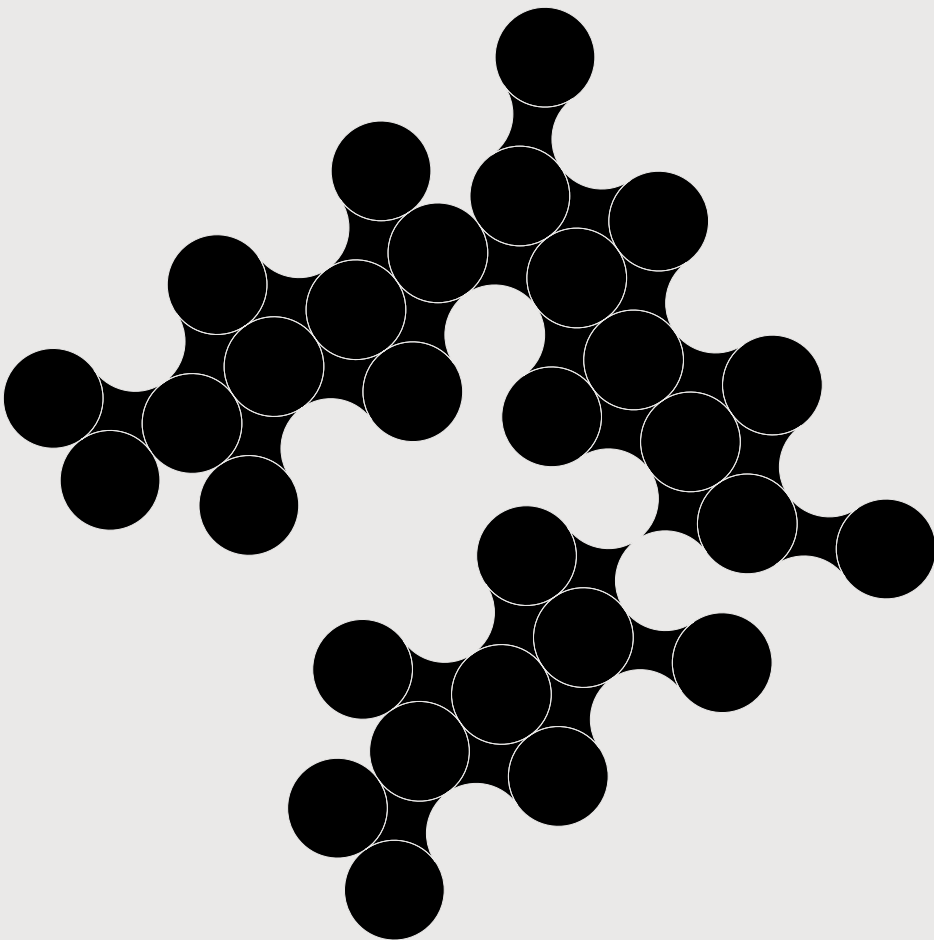

C Icon & 3C Icon

The C Icon and 3C icon are used as the icons and elements for both of our digital and print for social media content, website and poster. The icons can be used in our brand colours.

Microbiome Icon

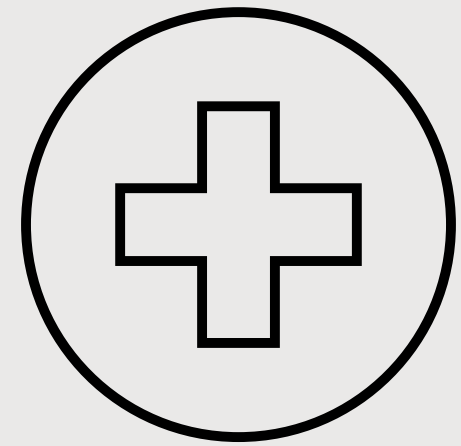

The Microbiome Icons are used as the icons and elements for both of our digital and print for social media content, website and poster. The icons can be used in our brand colours.

Our Feature Icons

The Feature Icons are used as the icons for our website, packaging and social media content to explain the benefit of the product. The eight icons stand for eight key features but the explanation can be changed based on different circumstances.

The icons are mainly used in black and white but it can be changed to our other brand colours.

Our Key Ingredients

Restore Complex:

Upcycling Wild Bilberries
for advanced skin repair.

Lactobacillus Ferment Lysate
to enhance skin barrier function, reduce TEWL.

Tasmannia Lanceolata Fruit/Leaf Extract
helps to reduce itchiness and redness.

Wild Bilberries

The name "bilberry" appears to have a Scandinavian origin, possibly from as early as 1577, being similar to the Danish word *belle* for whortleberry with the addition of "berry". In Scandinavian languages, terms for bilberries have names that carry the meaning "blueberry": e.g. *blåbär* in Swedish and *blåbær* in Danish and Norwegian.

 B-Restore Barrier Enhancing Cream

Tasmannia Lanceolata Fruit

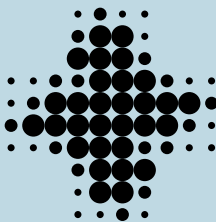

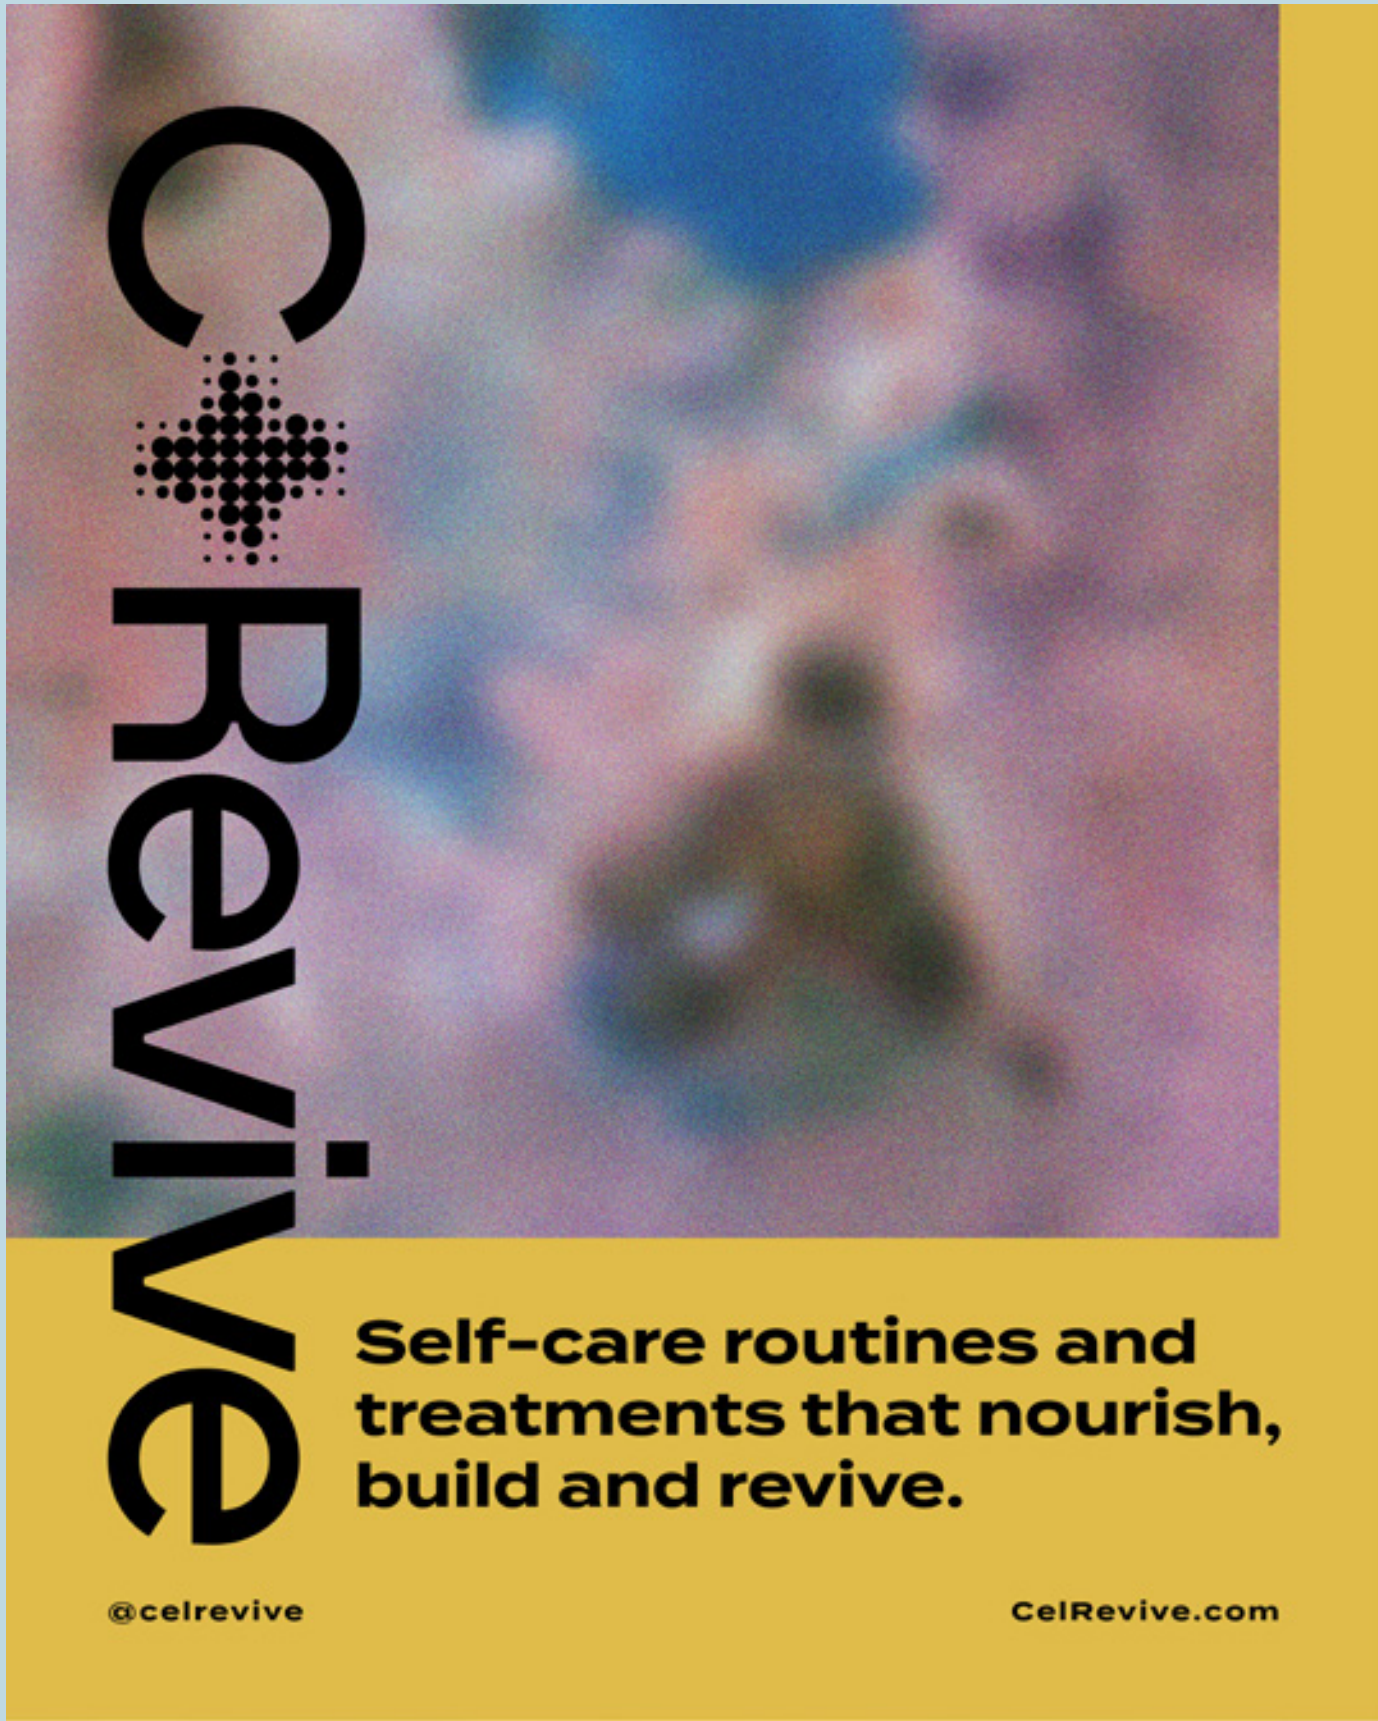

This plant's fruit and leaves are rich in antioxidants including quercetin, lutein, and tocopherol (vitamin E)—all of which have soothing benefits and help neutralize the visible effects of environmental stressors that accelerate the aging process within skin.
