Seamless Integration

Frontend Enhancements ↔ API / Backend Services
↔ New / Enhanced API / Services

Outcome in 3 Months

Intelligent, Reliable and Scalable Platform
Delivering Real Value to Users & Investors

Our 3-Month Plan builds a robust foundation, brings AI-driven personalization to life, and prepares CelRevive for investor confidence and market leadership.

Meet the CelRevive Technology Team

Experienced leadership supported by specialists in AI, Full-Stack Engineering, Cyber Security, Data Analytics and Quality Assurance.

Anirban Chakrabarty
Founder & Solution Architect

Master of Data Science (UNSW),
MBA (Finance),
B.Tech (Electronics)

27 years delivering software, cloud,
AI and digital transformation
solutions across Wall Street
institutions, enterprises and startups.

Sayan
Technical Lead &
Engineering Manager

B.Tech (Electrical Engineering)

5+ years leading Full-Stack,
DevSecOps, AI/ML and Agile
software delivery initiatives.

Manish Mohapatra
AI Engineer Intern

NIT Durgapur

Specialist in Machine Learning,
Generative AI, RAG systems and
production AI deployment.

Md Azad Ansari
Full Stack Developer Intern

Computer Science &
Business Systems

Experienced in React, Node.js,
MongoDB and AI-enabled
web applications.

Nathan Young
Cyber Security Intern

Diploma of Information
Technology (Cyber)

Supports platform security,
infrastructure reliability and
cybersecurity best practices.

Saptaparna Das
Data Analyst & QA Intern

B.Tech (Electronics &
Communication)

Supports quality assurance,
testing, data analysis and
product validation.
