When storms come

we need shelter for protection

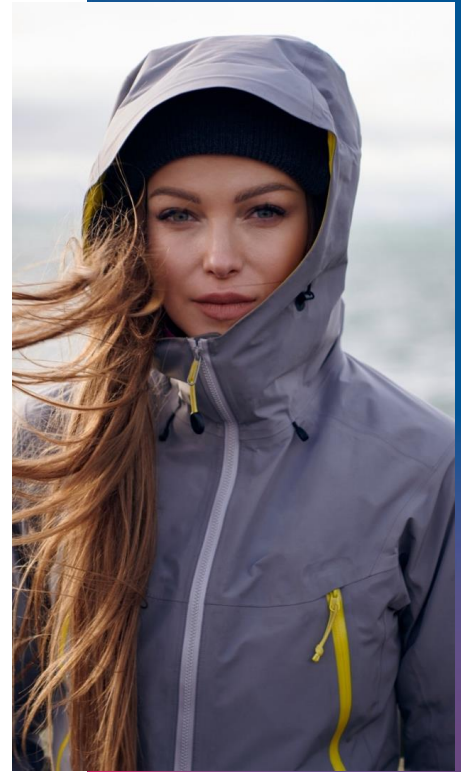

We all need protection in stormy times

You can't change the weather. You might be enjoying a walk in bright sunshine when a sudden thunderstorm appears. You need to seek protection before the situation gets dangerous.

This is just as true for our skin

Inflammatory reactions caused by external stimuli can damage the skin barrier and make the skin react in irritation. This can have a massive effect on our quality of life and we seek comfort in response.

» The solution: DEFENSIL®-PLUS – the specialist for acute and chronic skin irritation.

ACTIVES

valuable multi-active plant extracts and oils, making it an effective treatment for inflamed

CARDIOSPERMUM HALICACABUM Oily extract

- Oily extract from the balloon vine (tropical creeper)
- Traditionally used in homoeopathy to treat itching and allergic skin rash
- Weaker course of inflammatory and allergic reactions due to phytosterols (β -sitosterol, campesterol, stigmasterol)

RIBES NIGRUM Seed oil

- High content of ω -3/6 fatty acids
- Supports the skin barrier (linoleic acid for the formation of ceramide I)
- Soothing for the skin in atopic dermatitis (γ -linolenic acid promotes the formation of anti-inflammatory prostaglandins)
- Anti-inflammatory thanks to stearidonic acid (inhibition of 5-lipoxygenase)

HELIANTHUS ANNUUS Unsaponifiable fractions

- High content of unsaponifiable substances (phytosterols, tocopherol and squalene)
- Bioactive skin care components
- Supplies beneficial building blocks of the skin barrier
